X2 CONSULT

ACCREDITED LEVEL 3:

SAFEGUARDING IN THE SECURITY SECTOR

Course Aims:

This Level 3 accredited Safeguarding course is specifically designed for professionals working in the security industry, equipping them with the essential knowledge and skills to identify, manage, and respond to safeguarding concerns in a security setting. The course covers recognising signs of abuse and exploitation, implementing safeguarding protocols, and effective intervention techniques tailored to security roles. Participants will explore situational awareness, and practical response strategies, ensuring they can confidently handle safeguarding issues in environments such as public events, night-time economy venues, corporate security, and private protection roles. The training also includes real-life case studies, guidance on incident reporting and escalation procedures, and an understanding of legal obligations and multi-agency collaboration.

By the end of the course, attendees will have the confidence to apply safeguarding principles within their security operations, ensuring the protection of vulnerable individuals, minimising risk, and maintaining a safe and professional environment for all.

Who is this course for?

This Safeguarding in the Security Sector course is for roles included but not limited to door supervisors, security officers, close protection, event security, crowd management teams, corporate and retail security teams, transport security personnel, custodial staff, private investigators and security managers.
